

Patient protocol for office visits:

We are reaching out to you because you have scheduled an appointment at our office. We have taken additional steps to ensure both your safety and that of our dental team. Our team is in constant contact with both national and local health care organizations to ensure the latest protocols are implemented. Our staff is screened daily for symptoms and temperatures. Along that line, you must review the Covid 19 questionnaire on this website labeled "PATIENT ADVISORY AND ACKNOWLEDGEMENT." Your questionnaire will be screened before your appointment.

Please arrive at your appointed time and call the office from your car. Do not enter the office until advised to do so by our receptionist. Please do not enter the office without a mask on. Your temperature will be taken at the front door. Please use the hand sanitizer immediately as you enter. This is located to the right of our front desk. A brief review of your questionnaire will be completed and then you will be escorted to the treatment room.

We will be staggering appointments to allow for social distancing and to minimize patient interaction. Extensive cleaning of treatment rooms takes place between each patient visit. This adds time between each appointment. We will also be frequently disinfecting our welcome areas and frequently touched surfaces.

We thank you for your patience and understanding as we all are working to get through this together. We look forward to welcoming you back to the practice. Putting your dental health on hold can lead to significant problems. We urge you to continue on with your dental care. Your oral health remains our top priority.

All the best,

Michele Brucher Collier, DMD

Kevin B. Collier, DMD
